Objective

Aspiring Full-Stack Web Developer passionate about building user-friendly, scalable, and modern web applications. Strong foundation in React, Tailwind CSS, Django REST Framework, and API integrations with ongoing learning in full-stack development. Seeking opportunities to contribute to real-world projects while growing technical expertise.

Technical Skills

- Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS
- Backend: Django, Django REST Framework, Python
- Database: SQLite, PostgreSQL (basic)
- Tools & Platforms: Git, GitHub, VS Code, Figma (UI/UX design)
- Other: REST API integration, Responsive Web Design, UI/UX principles

Projects

BetterMe – Self-Improvement Platform (In Progress)

- 🔗 React + Tailwind frontend with multiple pages (Home, Login, Signup, Jobs, Courses, Session View)
- 🔗 Backend in Django REST API for session management
- 🔗 Designed scalable structure and responsive UI

Counseling AI App (Prototype)

- 🔗 Integrated custom LLM with Django backend for career counseling
- 🔗 Built REST APIs for session handling, chat, and questionnaire
- 🔗 React frontend with staged flow: Questionnaire → Loading → Chat Interface

Prime Energy Drink Website Redesign (UX Project)

- 🔗 Complete UI/UX redesign focusing on modern layouts and visuals
- 🔗 Improved information hierarchy and user engagement

Education

Class 10th Student (2025) – Lucknow, India
- Interests: Computer Science, Design, and Full-Stack Development

Strengths

- Fast learner with strong problem-solving mindset
- Passion for UI/UX design and web technologies
- Good at team collaboration and self-driven learning

Extracurricular

- Actively learning full-stack development through Angela Yu's course and Code With Harry's playlist
- Exploring 3D web animations and Web3 basics
